"Media That Matters"

Our purpose is to provide media that matters that will enrich the lives of our readers by providing premium quality, life-changing, timeless literature that promotes personal growth, personal reflection and the overall personal experience.

## COMPANY BIO

GreeneHouse Media was founded in 2005 by Author Ryan C. Greene as Bakari Book Publishers. After researching how tough it is to get a book picked up by a mainstream publisher, and looking at the success of some of his friends who started their own publishing companies, Ryan was inspired to form his own company to publish his books himself as well as books by other aspiring authors. His first book, *Success Is In Your Hand: Unlocking The Successful Person You Were Designed To Be*, garnered much local success and assured him that he had made the right decision.

GreeneHouse Media's purpose is to release literature that will have a positive long-lasting impact on the lives of the readers. Therefore, GreeneHouse is very selective in the material it decides to release. Each book must have entertainment value but above all, each book must have edu-tainment value. That is, each book must bring out the great promise within the reader. GreeneHouse Media's genres include Self-Help, Inspirational, Christian and Business.
